

The City of Beijing

Beijing (formerly romanised as Peking) is the capital of the People's Republic of China. It is not only the nation's political center, but also its cultural, scientific and educational heart as well as a key transportation hub. With a history of more than 3,000 years, it has been an integral part of China's history. There is scarcely a major building that doesn't have at least some national historical significance. Being the capital of China for about 850 years, it is one of the Four Great Ancient Capitals of China, offering China's most wonderful array of attractions.

Beijing was the largest city in the world by population for much of the second millennium A.D. The city is endowed with rare cultural heritage due to its long history. The Great Wall, one of the world wonders and the sole man-made architecture which can be seen from space, extends several hundred miles in Beijing. The poetic and picturesque Summer Palace is the classic works of the feudal dynasty garden. The Forbidden City is the most splendid group of imperial palace in the world. The temple of heaven is the place of worship for emperors of various dynasties of China as well as a splendid achievement of the Chinese ancient architectural art. The above four have been selected by the United Nations organization of education, Science and Culture as the world cultural heritage. What is typical of Beijing is hutong and the compound courtyard.

• Important Dates

Paper for Archives based on abstract review:

Submission of abstracts, 12 January 2018
 Notification of abstract acceptance, 15 February 2018
 Submission of camera ready full papers, 31 March 2018

Paper for Annals based on double-blind peer-reviewed:

Submission of full paper, 12 January 2018
 Notification of paper acceptance, 28 February 2018
 Submission of camera ready full papers, 31 March 2018

• Registration

	Before Mar.15, 2018	After Mar.15, 2018
Participants	3150 RMB	3500 RMB
Full time students & seniors	1750 RMB	2100 RMB
Accompanying persons	1750 RMB	2100 RMB

ISPRS TECHNICAL COMMISSION III SYMPOSIUM

Developments, Technologies and Applications in Remote Sensing

May 7-10, 2018 Beijing, China

Organized by

ISPRS Technical Commission III

Hosted by

National Geomatics Center of China

Supported by

National Administration of Surveying, Mapping and Geoinformation, China
 Chinese Society of Surveying, Mapping and Geoinformation
 The Geographical Society of China
 China Association of Geographic Information Society
 China Association of Remote Sensing Application
 GNSS & LBS Association of China
 International Cartographic Association (ICA)
 UNGGIM-AP
 ISPRS ICORSE

Symposium Topics and Themes

The themes include but are not limited to:

1. Thematic Information Extraction
2. Microwave Remote Sensing
3. SAR-based Surface Generation and Deformation Monitoring
4. Hyperspectral Image Processing
5. Information Extraction from LiDAR Intensity Data
6. Remote Sensing Data Fusion
7. Landuse and Landcover Change Detection
8. Remote Sensing of Atmospheric Environment
9. Cryosphere and Hydrosphere
10. Agriculture and Natural Ecosystems Modelling and Monitoring
11. Planetary Remote Sensing and Mapping
12. Disaster Assessment, Monitoring and Management
13. Remote Sensing Data Quality
14. Environment and Health
15. Pattern Analysis in Remote Sensing
16. Global Mapping: Updating, Verification and Interoperability
17. Remote Sensing for Regional SDI

Prospective authors are invited to submit papers dealing with original and unpublished research on themes related to the symposium. Submitted papers will be refereed for quality, originality and relevance by the Scientific Committee.

1. Accepted papers will be published in one of two categories
 - **The International Annals of the Photogrammetry, Remote Sensing and Spatial Information Sciences (CPCI, SCOPUS, DOAJ)**
 - **The International Archives of the Photogrammetry, Remote Sensing and Spatial Information Sciences(EI,CPCI,SCOPUS,DOAJ)**
2. Process
 - Full papers submitted for the Annals are assessed using a double - blind peer review process.
 - Papers submitted for the Archives are accepted on an abstract review process, which, if accepted, are followed by a full paper.
3. All abstracts should be written in English comprising 800 - 1000 words and containing sufficient details for evaluation (including the approach, results, concepts, reasons why it should be considered and why it would be interesting for the audience).
4. All papers should be formatted as per ISPRS author's guidelines that can be accessed at <http://www.isprs.org/documents/orangebook/app5.aspx>.

ISPRS TC III will issue "Young Author Awards" to encourage young authors who are less than 35 years old (Born on or after 1 June 1983) and are the sole author of a high quality paper presented to the Symposium. This award will only be for papers submitted to Annals. The authors should indicate their interest in the Young Author Awards when submitting their full papers.

Scientific Committee

Chair

Jie JIANG (President, ISPRS TC III) National Geomatics Center of China

Co-Chair

Ahmed Shaker(Vice-President, ISPRS TC III) Ryerson University, Canada

Members

Xianlian Liang, Academy of Finland, Finland
Batuhan Osmanoglu, NASA Goddard Space Flight Center, USA
Uwe Soergel, University Stuttgart, Germany
Eija Honkavaara, National Land Survey of Finland, Finland
Marco Scaioni, Politecnico Milano, Italy
Jixian Zhang, Chinese Academy of Surveying and Mapping, China
Ammatzia Peled, University of Haifa, Israel
Lixin WU, Central South University, China
Rongxing (Ron) Li, Tongji University, China
Mitsunori Yoshimura, PASCO Research Institute, Japan
Kaichang DI, Chinese Academy of Sciences, China
Tullio Joseph TANZI, Institut Mines-Telecom - Telecom ParisTech, France
Hussein M. Abdulmuttalib, Dubai Municipality, UAE
Fazlay S. Faruque, University of Mississippi Medical Center, USA
Maria Teresa Melis, University of Cagliari, Italy
Brigitte Leblon, University of New Brunswick, Canada
Junichi Susaki, Kyoto University, Japan
Zhenhong Li, Newcastle University, UK
Mattia Crespi, University of Rome, Italy
Michele Crosetto, CTTC, Spain
Konstantinos Karantzalos, National Technical University of Athens, Greece
Baoxin Hu, York University, Canada
Guoqing ZHOU, Guilin University of Technology, China
Ana Paula Baungarten Kersting, Teledyne Optech, Canada
Wei Yao, Technische Universitaet Muenchen, Germany
Anna Brook, University of Haifa, Israel
Guido Waldhoff, University of Cologne, Germany
Yongnian Zeng, Central South University, China
Nan Hao, German Aerospace Center, Germany
Pradeep Khatri, Tohoku University, Japan
Beata Csatho, University at Buffalo, USA
Vittorio Barale, European Commission DG Joint Research Centre, Italy
Shibendu Shankar Ray, Mahalanobis National Crop Forecast Centre, India
Francesco Pirotti, University of Padova, Italy
Jürgen Oberst, German Aerospace Center, Germany
Irina Karachevtseva, Moscow University, Russia
Orhan ALTAN, Istanbul Technical University, Turkey
Madhu CHANDRA, Chemnitz University of Technology, Germany
Guoman HUANG, Chinese Academy of Surveying and Mapping, China
Thomas Blaschke, University of Salzburg, Austria
Yves M. Turre, Anewworld and CNES, France
Muralikrishna V. Iyyanki, DRDO, India
Jie Shan, Purdue University, USA
Devis Tuia, University of Zurich, Switzerland
Hao WU, National Geomatics Center of China, China

Organizing Committee

Chair

Jie JIANG (President, ISPRS TC III), China

Co-Chair

Junhong HU (Director, Foreign Affair Office), China
Hongping ZHANG (Secretary, ISPRS TC III), China

Symposium Venue

The Symposium venue will be Beijing International Convention Center (BICC), located close to the main venue of 2008 Olympic Games. BICC adjoins highways with ideal geographical location and all-round accessibility. Beijing Capital International Airport is 25 km to the east, while the historical Tian'anmen Square is 9 km to the south. 10 km to the west is the Summer Palace, and 80 km to the north is the Great Wall. Hotels of various classes are within walking distance.

Address of the Venue:

No. 8 Beichendong Road, Chaoyang District, Beijing, China
<http://www.bicc.com.cn/english/index.html>
