

# Webinar: Informal Settlements: Formalization and Build Back Better Projects?

Date: 14 June 2024

Time: 10 a.m.-12 p.m. and 2–3.30 p.m. CET

Online (via Webex)

## Background

Over the past 35 years, informal housing development has become an urgent issue in the UNECE region, with more than 50 million people living in informal settlements by 2019<sup>1</sup>, particularly in Southern and Eastern Europe. These settlements most often suffer from limited services, inadequate housing, insecure tenure, and low incomes, affecting some of “societies” most vulnerable populations.

UNECE, in collaboration with the International Federation of Surveyors (FIG), initiated research to address this issue, which led to significant publications such as "[Self-Made Cities](#)" in 2009 and "[Formalizing the Informal](#)" in 2015. The issue aligns with several UN Sustainable Development Goals (SDGs), emphasizing the need for inclusive, resilient, and sustainable urban settlements.

In 2019, UNECE published the "[Guidelines for the Formalization of Informal Constructions](#)". In 2022, the "[COVID-19 Recovery Action Plan for Informal Settlements in the UNECE Region](#)" was released to address both pandemic-related and pre-existing challenges.

This webinar will gather experts to:

- Share experiences
- Review progress made in formalization and build-back-better initiatives
- Explore ways to overcome remaining challenges in achieving the 2030 Agenda for Sustainable Development and the SDGs, with particular focus on SDG 11 (on making cities and human settlements inclusive, safe, resilient and sustainable).

We invite experts in land and informal settlement management to join the discussions on the challenges and the solutions put forward to overcome them (benefits, opportunities and longer-term implications).

---

<sup>1</sup> UNECE, "Guidelines for the Formalization of Informal Constructions", 2019.

## Programme

The webinar will kick off with introductory presentations by Dr. Chryssy Potsiou, a Professor at the National Technical University of Athens (NTUA); Paola Deda, the Director of UNECE Forests, Land and Housing Division; and Steven Nystrom, Principal at NewStream Companies.

The webinar is divided into two parts. The first part will showcase case studies from Albania and Greece. The second part will present case studies from Kyrgyzstan, Montenegro, North Macedonia and Serbia. Each part will include a Q&A session and open discussions, providing an interactive platform for participants.

The webinar will be moderated by Alexander Hedjazi, a Deputy Director at the International Affairs of the University of Geneva,

### **Part 1: 10 a.m. – 12 p.m.**
