**Craig Hill**  
**Leica Geosystems**  
**VP – Marketing & Services – Geomatics Division**

Dr Craig Hill is the Vice President of Marketing & Services at Leica Geosystems in Heerbrugg Switzerland. He received his PhD at RMIT University in Melbourne Australia, after completing a Bachelor of Applied Science and Master of Applied Science. Dr Hill's University studies were in the area of Land Surveying and included the design of new technologies for surveying professionals. Dr Hill started work for Leica Geosystems in 1995, and since then has been a core team member of numerous development projects to bring new technologies and services to Surveyors world-wide to increase their efficiency. Dr Hill is the Leica Geosystems representative for the International Federation of Surveyors (FIG) and regularly participates in their working-weeks and congresses. Dr Hill is a dual Australian and Swiss National, and in his spare time enjoys traveling with his family.
