

International Federation of Surveyors – Experience the World of FIG

International Federation of Surveyors

- Supports the international collaboration for the progress of surveying in all fields and applications
- Established in 1878
- A federation of national associations
- The only international body representing all surveying disciplines
- The professional community measures, models and manages the natural and built environment for the effective planning, efficient administration and sustainable use of the land, the seas and any structures thereon
- FIG has a vision to extend the usefulness of surveying for the benefit of society, environment and economy with the aim that the profession be increasingly positioned in significance and relevance, next door to everywhere
- A UN- and World Bank recognised NGO

Future Events

FIG Working Week 2017

- Helsinki, Finland

FIG Congress 2018

- Istanbul, Turkey

International Federation of Surveyors – Experience the World of FIG

FIG's Technical Work is Led by Ten Commissions

- Commission 1 *Professional Standards and Practice*
- Commission 2 *Professional Education*
- Commission 3 *Spatial Information Management*
- Commission 4 *Hydrography*
- Commission 5 *Positioning and Measurement*
- Commission 6 *Engineering Surveys*
- Commission 7 *Cadastral and Land Management*
- Commission 8 *Spatial Planning and Development*
- Commission 9 *Valuation and the Management of Real Estate*
- Commission 10 *Construction Economics and Management*

Each Commission prepares a work plan for their four-year-term and establishes working groups to fulfill the plans. Hence members have the opportunity to influence on the future of their specific topic.

Young Surveyors Network Aims To

- **improve** the number of young professionals participating within FIG
- **help** young professionals in the beginning of their careers to build an international network
- **increase co-operation** between the commissions, the students and young professionals network

FIG Standards Network

FIG promotes standards through

- liaising with standards bodies and NGOs
- ensuring lead contacts to Technical Committees
- proposing priorities on FIG's standardisation activities
- advising and providing information on standards to FIG

FIG Foundation

Gives grants and scholarships, promotes high standards of surveying education, encourages research activities and promotes the exchange of young surveying personnel.
