Nomination of Andrew Morley as Chair Elect of Commission 10

Dear Markku,

ICES nominates Andrew Morley as Chair of Commission 10 (Construction Economics and Management). As you will see from the attached CV Andrew has been involved with Commission 10 since 2001 working closely with the present and immediate past chairs. Andrew is also the current Chairman of Working Group 10.3. Construction Procurement.

We at ICES believe that Andrew has the professional and dynamic capabilities to lead the Commission and to take the Commission forward when Phillip Shearer retires in 2006. Indeed Andrew has the full support of ICES who will provide the necessary funding for him to fulfil his commitments as Chair Elect (and subsequently as Chair) of Commission 10.

Regards

Kevin Blackwell

ANDREW W MORLEY FInstCES, MCI Arb

Date of birth 5 September 1948.

Experience

Andrew has extensive experience of quantity surveying, construction economics and dispute management having worked for owners, consultants and contractors in the United Kingdom, Europe, Middle East, Africa and North America.

Assignments in recent years have been predominated by projects using PFI / PPP financing arrangements. His particular interest is the successful implementation of major infrastructure projects using the appropriate strategy from the full range of procurement and funding alternatives.

Current appointment

He is Managing Director of CCM Associates the Quantity Surveying and Commercial Management consultancy that he founded in 1987.
