

To the FIG General Assembly and the FIG Office

As President of the Colegio Oficial de Ingeniería Geomática y Topográfica (COIGT), it is my honor to formally express our full support for the nomination of Mr. Ángel Collado as Vice President of the International Federation of Surveyors (FIG) for the term 2027–2030.

Mr. Collado embodies the values, ambition and international outlook that FIG needs for the coming years. Over the past decade, he has been one of the most active Spanish leaders advocating for a renewed, modern and strategically positioned vision of Geomatics—promoting an evolution of the profession that aligns with global societal challenges, digital transformation and the growing demand for geospatial leadership worldwide.

His contribution to FIG has been exemplary, combining strong academic credentials, governmental experience, and international engagement. As Young Surveyors Representative for Academic Affairs, ambassador of the FIG Foundation, and active contributor to Commissions 2 and 7, he has demonstrated commitment, reliability and a clear capacity to deliver meaningful results. His leadership of global initiatives—particularly in education and the connection between institutions and emerging professionals—reflects the impact he is capable of bringing to the FIG Council.

COIGT is fully confident in his strategic vision, his ability to represent the Federation with professionalism and diplomacy, and his unwavering dedication to the improvement and global recognition of the geomatics profession. We firmly believe he will bring valuable perspectives, energy and continuity to the Council's ongoing work.

The COIGT will provide the institutional and administrative support necessary for Mr. Collado to effectively carry out all duties associated with the Vice Presidency, along with any additional resources deemed appropriate for the fulfilment of his mandate.

For these reasons, COIGT proudly endorses and strongly recommends the candidacy of Mr. Ángel Collado for FIG Vice President.

Sincerely,

In Madrid miércoles, 03 de diciembre de 2025

Andrés Díez Galilea

Decano
