FIG e-Newsletter October 2011

Dear Colleague,

Welcome to the FIG e-Newsletter, which brings you latest information about FIG and its activities. The information referred here is in full length available on the FIG web site. Thus the e-Newsletter is produced to inform you what has happened recently and what interesting things are going to take place in the near future. The FIG e-Newsletter is circulated monthly by e-mail. The referred articles are in English and written in a way that you are able to extract them to your national newsletters or circulate to your members and networks.

Article of the Month – October 2011

On the FIG web site we publish each month a paper called the Article of the Month. This is a high-level paper focusing on interesting topics to all surveyors. It can be picked up from an FIG conference or another event. The Article of the Month in September 2011 is written by **Alexander Sagaydak and Anna Lukyanchikova**, Russian Federation: **Development of Agricultural Land Market in the Russian Federation**. The development of Agricultural Land Market is unique in Russia compared to other countries. The authors have developed a new method for calculating the value of agricultural land because the banks have not accepted the cadastral value as a basis for agricultural land mortgages. This paper was originally presented at the FIG Working Week in Marrakech in May 2011.

FIG Commission 7 Cadastre and Land Management Annual Meeting 2011 26-30 September 2011, Innsbruck, Austria

Participants visiting the Construction Lower Inn Valley Railway Site

FIG Commission 7 held his annual meeting in the wonderful city of Innsbruck, Austria culminating with the high level International Symposium Cadastre 2.0. This meeting welcomed delegates from 30 countries among them FIG Vice President **Chryssy Potsiou**, former Chairs of Commission 7 **Andrzej Hopper, Ian Williamson, Paul MunroFaure and András Oskó**. Without any doubt, issues related to land administration and cadastral perspectives are still of very high interest, namely in regard of citizens' involvement, crowd sourcing and social medias.

FIG Vice President Greenway attends Congress in Bosnia Herzegovina, Ilidza near Sarajevo, Bosnia Herzegovina, 28-30 September 2011

Vice President **Greenway** with the Congress organisers presentation.

The Geodetic Society of Bosnia-Herzegovina became a Member Association of FIG in 2010, and invited Vice President Greenway to attend the Congress 2011, held 28-30 September 2011 to make a presentation on the work of FIG to the delegates. Over 200 professionals attended the congress, from Bosnia-Herzegovina and surrounding countries. Those responsible for the cadastre face a number of particular challenges. Some of these relate to the loss of cadastral records in the recent war; others to the legacy of differing cadastral systems in the country.
