

# Sustainable and Effective Land Management

Mehmet Fatih Diri (Turkey)

**Key words:** Cadastre; Cartography; Digital cadastre; e-Governance; GNSS/GPS; Land management; Photogrammetry; Positioning; Real estate development; Valuation

## SUMMARY

The property, addition to the economic dimension, is an important aspect of social and moral concept. General Directorate of Land Registry and Cadastre can be considered the heart of property in Turkey, carried out reforms in last decade has gained more powerful structure, more innovative and more sophisticated. Projects implemented by the institution such as provides significant gains in the country's administrative and sociological perspective, has achieved to a large extent economically. In 2003, the title deed revenue of 230 million dollars, as end of the year 2015 came to 3,10 billion dollars, increased by 900%. In order to increase the efficiency and quality of the land registry and cadastre services, with 135 million euro loan from the World Bank-funded and launched in 2008, Land Registry and Cadastre Modernization Project is carried out successfully. Innovative policies following GDLRC, also has a modern and integrated system of land registry and cadastre information. GDLRC as the architect of the Turkey's National Permanent GNSS Network, is the country's most important and most experienced institution in photogrammetry. GDLRC, with its professional teams in

land registry and cadastre fields, 169 years experience-based knowledge and solution-oriented management approach; is quite keen on making cooperation and sharing experiences with other countries.
