# 13<sup>th</sup> International LANDNET Workshop

Skopje, North Macedonia  
25-27 May 2022

Organized in cooperation with:

**Draft Concept note**

**13<sup>th</sup> International LANDNET workshop**

**Skopje, North Macedonia**

**25-27 May 2022**

Since 2002, FAO REU has organized 20 annual regional workshops on land tenure topics such as land consolidation, land banking, state land management, land abandonment and land market development. Since 2010 the technical network is known as LANDNET. In 2019, the workshop was organized in Galicia, Spain, jointly with AGADER (regional ministry of agriculture and rural development), GIZ and FIG (International Federation of Surveyors) with around 200 participants from more than 30 countries in Europe and Central Asia. The 2020 and 2021 workshops were unfortunately cancelled due to the COVID-19 pandemic.

For the continuation of the technical network and strengthening of partnerships with key regional and national stakeholders, it is for FAO REU important to organize a workshop in 2022.

The 13th LANDNET workshop will take place in a hybrid format (physically and virtually) from 25 to 27 May in Skopje, North Macedonia, organized together with the University Ss. Cyril Methodius, Faculty of Civil Engineering through a Letter of Agreement. The workshop is co-organized in partnership with the Ministry of Agriculture, Forestry and Water Economy and the Delegation of the European Union to the Republic of North Macedonia.

Due to the COVID-19 pandemic, it was decided to organize a hybrid event, where participants able to travel will gather in a physical setting while others can participate virtually from their home countries. There are expected to be 60-80 participants in Skopje and about 100 connecting virtually. All local health and safety precautions and guidance will be observed.

The workshop will take place over 2 ½ days. On the first day, the main focus will be on land banking instruments with a presentation of the recently published FAO land banking study (<https://doi.org/10.4060/cb8307en>) and launch of a new FAO initiative on capacity development for land consolidation and land banking. On the second day, focus will be on the introduction of land consolidation in North Macedonia with presentations in the morning and a field trip to land consolidation project areas in Bitola municipality in the afternoon. The final day will focus on policies to address land abandonment and also on LANDNET itself with election of the new LANDNET Board.

The objectives of this year's LANDNET workshop are to:

- Revitalize the regional technical network
- Provide an overview of good practices for land banking in Europe
- Present and discuss lessons learned from the introduction of land consolidation in North Macedonia
- Discuss policy options to address land abandonment

### Tentative programme

<b>Wednesday, 25 May 2022</b>	
<i>Theme of the day: Land banking and capacity development</i>	
09.00 – 9.30	Registration of participants
<b>Session 1: Opening</b>	
Moderator: Morten Hartvigsen, FAO REU	
9:30 – 9:35	Welcome by Ljupco Nikolovski, Minister of Agriculture, Forestry and Water Economy (TBC)
9:35 – 9:40	Welcome by David Geer, Head of Delegation, Delegation of the European Union to the Republic of North Macedonia (TBC)
9:40 – 9:45	Welcome by Dr. Zlatko Srbinoski, Dean, Faculty of Civil Engineering (TBC)
9:45 – 9:50	Welcome by Nabil Gangi, Deputy Regional Representative, FAO REU
9:50 – 10:00	Introduction and setting the scene for the workshop by the moderator + introduction of the election of the LANDNET Board Morten Hartvigsen, Land Tenure Officer, FAO REU
