and Sustainable
Resource Management
for All

Our Mission

Professionals and their organisations have the capacity and capability to modernise Geospatial Survey Infrastructures (GSIs) and to address the future geospatial and survey challenges.

FIG Working Week 2024

19-24 May

Accra, Ghana

Your World, Our World:
Resilient Environment
and Sustainable
Resource Management
for All

Our Performance - Actioned

- Participate in forums, meetings, seminars / workshops, and technical sessions.
- Assist with the preparation of regional, sub regional, country or organisation based strategic / implementation / operational plans.
- Provide advice and advocate UN initiatives, such as the Global Geodetic Reference Frame, Integrated Geospatial Information Framework, and the Global Geodetic Centre of Excellence.
- Contribute and collaborate with FIG Commissions / Networks on GSI workshops and publications

and Sustainable
Resource Management
for All

Our Performance – In progress

- Deliver support to the Pacific Island Countries and Territories (PICTs) and PGSC with their strategic and implementation plans.
- Engage better with countries from the south east Asia region
- Ensure more consistent inclusion and assistance from both the academia and corporate sector.
- Create information that clarifies the role of FIG AP CDN and its partners.

FIG Working Week 2024

19-24 May

Accra, Ghana

Your World, Our World:
Resilient Environment
and Sustainable
Resource Management
for All

Our Performance – Waiting

- Discover existing GSI capacity and capability building material, and suitable platforms for portals to share knowledge, experiences and ideas.
- Work with educational institutions to explore how core competencies for GSI can be provided and recognised.
- Conceptualise a framework or mechanism that will support mutual recognition of GSI qualifications between countries in a region
- Source communication material / fact sheets that explains the importance and value of GSIs
