The question was?

WE WANT YOU

The **Council** of European Geodetic Surveyors
Comité de Liaison des Géomètres Européens

Or was it?

YOU WANT US

The **Council** of European Geodetic Surveyors
Comité de Liaison des Géomètres Européens

My guess is ...

WE WANT EACH OTHER

But how strong is this feeling?

- We do not appear on the radar
- We become surveyor because Dad (or Mum ... :-/) is a surveyor
- We would need a EuroSurveyor
- We want (you) to get involved in decision making - Russian Doll Modell

Welcome to the CLGE

We are the Council of European Geodetic Surveyors.

Our Mission is to represent and promote the interests of the geodetic surveying profession in the private and public sector in Europe, especially:

- The creation of permanent forum for European geodetic surveyors, who are committed to European co-operation.
- The promotion and exchange of technical, scientific, educational and organisational know-how with the European states.
- Provision of assistance to member countries, to national associations and EU institutions on request.

Strategic Goals of CLGE

- Influence;
- Visibility;
- Renewal;
- Members Satisfaction.

Dynamic Professional Knowledge Base

Aims:

- Explain our Profession to the European Bodies
- Guidance for individual Surveyors
- Source of information for Stakeholders

European Institutions and also for national Member organisation in order to exchange best practices.

Structure:

- The dynamic CLGE knowledge base (in English) is meant to be a comprehensive **collection of relevant information about the profession of Geodetic Surveyors in all CLGE Member countries that is regularly updated.**
- All information that is already available on the profession of Geodetic Surveyors on national or European level or within CLGE **should be integrated in the database after a validation check.**

Key elements:

- **National legal framework**
- **Fields of activity**
- **Professional recognition**
- **Education programmes**
- **Statistical data/economical data**
- **Other relevant information**
