Framing Questions – key challenges and vulnerabilities

1. What are the key vulnerabilities and challenges for SIDS countries in contributing to their countries resilience to natural disasters & sea level rise –what are the roles of land sector agencies & land professionals in this regard?

2. What are the key vulnerabilities and challenges for SIDS countries in relation to rapid urbanisation and how can this be addressed by the land sector agencies and land professionals?

3. What are the constraints in improving land governance and administration in SIDS countries?
Framing Questions – how these challenges can be addressed by land governance

4. How can these land governance and administration constraints be addressed by the land sector agencies and land professionals – including applying the VGGTs and Fit-For-Purpose Land Administration Systems?

5. What capacity building is required for the land professionals to fulfil this role and how can this capacity building be best implemented?

6. What professional and organisational collaboration is needed by associations such as FIG, the PGSC, the SSSI, NZIS, and the RICS in helping land professionals in SIDS countries respond to the vulnerabilities and in fulfilling their roles?
