## **Advisory Group on Outreach**

---

### ***Mission:***

***Promote the awareness, adoption, and advocacy of ISO/TC 211 standards in user communities.***

***Provide information through standards seminars, tutorials, workshops at international conferences and meetings***

# Challenges

- 1 Role of ISO/TC 211 is supporting the implementation of its standards in Europe**
- 2 Is it possible to establish a Permanent Committee on Spatial Data Infrastructures for the Middle East as part of the GSDI -  
  
if so, the role of standards**

# Thank you !
