

Hearthquake: How to Act?

Italian Department of Civil Protection Rispoli (Italy)

Key words: Land management; Land readjustment; Risk management; Security of tenure

SUMMARY

This short movie refers to famous films explaining how to behave during an earthquake in order to protect themselves and facilitate the intervention of the rescuers.

After a film presentation of examples of earthquakes with different intensity, the movie shows a list of behaviors to be observed during and after the earthquake.

The movie is a media to spread the knowledge of the issue among the population of adults and children with simplicity and also with a little irony.

The movie lasts about 10 minutes
