# May Geodesy Students' Club - How to Show Practical Activities in the Modern World of Geodesy. Association of Polish surveyors

#### FIG FIG Working Week 2024 19-24 May Accra, Ghana Your World, Our World: Resilient Environment Accra, Ghana Your World, Our World: Resilient Environment Accra, Ghana for All

# National Conference of Geodesy Students in Poland - OKSG

- The idea of an organization bringing together **geodesy students from all over Poland** was born in 2001.
- The need to create such an organization resulted from insufficient, in the opinion of students, **contacts between geodetic departments operating at various Polish universities**.
- Additionally, the following years showed the need to better navigate the entire geodetic community
- The idea of getting to know one's **future employers and the structure of geodetic contracting and offices, already during studies,** fit well.

### FIG Norking Week 2024 19-24 May Vour World, Our World: Resilient Environment Accra, Ghana

# National Conference of Geodesy Students in Poland - OKSG

- This idea aroused great interest among the authorities
- of the Association of Polish Surveyors
- Therefore, it was decided to **create a Students' Club** operating within the Association.

# The National Geodesy Students Club was established on April 9, 2002.

### National Conference of Geodesy Students in Poland - OKSG

#### The goals of the Club are - according to the Regulations:

**Expanding knowledge** in the field of broadly understood geodesy

Establishing cooperation with geodesy circles and organizations operating at Polish universities and abroad

**Creating a representation** on behalf of students of geodetic fields in cooperation with the Main Committees of the SGP and other organizations related to geodesy

Helping students and graduates of geodesy and related fields, exchanging experiences and information.

#### The most outstanding personalities

#### GeoAzymuty

Celem plebiscytu jest wyłonienie przez studentów z całej polski najwybitniejszych ich zdaniem osobowości oraz dokonań w dziedzinie geodezji i kartografii. Nominacji kandydatów do plebiscytu udzielają Studenckie Koła Naukowe a Laureatów wybierają w głosowaniu większościowym studenci należący do Ogólnopolskiego Klubu Studentów Geodezji.

Plebiscyt "Geo Azymuty" odbywa się w ramach działalności Ogólnopolskiego Klubu Studentów Geodezii tworzącego kapitułę plebiscytu oraz Koła Naukowego Geodetów Dahlta będącego jego organizatorem. Idea Plebiscytu została zainicjowana podczas Ogólnopolskiego Spotkania Studentów Geodezji w Gliwicach 16 grudnia 2011r. przez pomysłodawce plebiscytu Mirosława Marciniaka.

Mamy nadzieję, że zapoczątkowana przez nas inicjatywa zyska spore zainteresowanie zarówno wśród studentów jak i środowiska geodezyjnego z całej Polski. A nasze wydarzenie na stałe wpisze się w geodezyjny kalendarz, ciesząc się coraz większym uznaniem.

> Mirosław Marciniak AGH Kraków

Man of the year 2018, Ph.D. Dariusz Gotlib from the Warsaw University of Technology, Poland

#### **Conclusions.**

- the best students the most engaged
- students and universities have relationships with each other!!
- we know them NOW!
- they know us now, the association and our activities
- get to know geodetic companies, NOW!
- surveying companies and employers will get to know tchem, NOW!
- their work has a real impact on their professional life, NOW!
- everyone is needed and everyone can achieve their goals

#### Thank you and I wish everyone success!!
