Key words: Education; Academic Networks

SUMMARY

Networks of academic and educational institutions are proven platforms for knowledge sharing and experiences in education exchange. During the International Workshop LALA LADM+, 5-9 November 2019 in Quito Ecuador, organized by University ESPE Ecuador and Kadaster International together with Faculty ITC University of Twente from the Netherlands, Latin America Land Administration Network - LALAN was established. The objective of this network is to: perform activities that can support capacity development and increase knowledge in both fit-for-purpose and responsible land administration within the Latin America Land Administration Network of education institutions. This paper presents the process of establishment of LALAN, the network's objective and planned activities for the coming period.
